| <b>Descripción / Description / Description</b> | <p>Placa drenante modular fabricada en copolímero de polipropileno con geotextil incorporado. Diseñada para aplicaciones de paisajismo, terrazas, áticos, gimnasios y superficies deportivas, proporciona una excelente capacidad de drenaje y absorción de impactos. Su estructura modular permite una instalación rápida, estable y duradera.</p> <p>Modular drainage panel made from polypropylene copolymer with integrated geotextile. Designed for landscaping, terraces, rooftops, gyms and sports surfaces, it provides excellent drainage and impact absorption. Its modular structure allows for quick, stable and durable installation.</p> <p>Plaque drainante modulaire fabriquée en copolymère de polypropylène avec géotextile intégré. Conçue pour les aménagements paysagers, terrasses, toitures, salles de sport et surfaces sportives, elle offre un excellent drainage et une bonne absorption des impacts. Sa structure modulaire permet une installation rapide, stable et durable.</p> |
